

ACUBIZ ONE

Acubiz One

All-in-one app for Expense Management

In the app - Acubiz One, you register and approve employee expenses and hours. Acubiz One is an all-in-one app that meets the user's needs and preferences!

Quick and easy, you handle both expenses, allowances, mileage, hours and approval while you are on the go! Customize the user interface in Acubiz One for your needs and preferences - choose what should appear on your dashboard and create shortcuts to your favorite features.

Acubiz One is equipped with a user-friendly and informative dashboard with practical features that provide a quick overview. The dashboard can display:

- List with unprocessed transactions
- User-friendly dashboard with graphical overview for outstanding and details of expenses, mileage and time registration
- Possibility of individual settings according to needs and preferences
- History with all transaction types
- Possible to filter the transactions with icons
- Access to all features in the menu

Acubiz One collects all employee expenses and creates increased transparency for both employee and finance.
