

ACUBIZ FAST TRACK

Send single transactions directly for approval with Fast Track

Acubiz Fast Track simplifies expense reporting for users with our Acubiz EMS by reducing the time spend in the future process. Now, you don't have to sit by the computer and manage your attachments before approval. With our apps One, Capture, Mileage and Time single transactions are send directly for approval.

Create single transactions with one of our apps on your smartphone, enter the details and send directly for approval. You receipt will automatically be matched with the associated credit card transaction, and send directly for approval – quick and simple expense reporting on-the-go.
