

ACUBIZ SINGLE SIGN-ON (SSO)

Log on to Acubiz EMS with SSO once and for all

Single Sign-On (SSO) simplifies the login process, and as a user of Acubiz EMS, it is even faster to access your web-based Acubiz EMS solution – and to create your travel expenses as an employee.

The use of SSO makes the login process to Acubiz Expense Management Service (EMS) unnecessary. Acubiz SSO service connects to your internal infrastructure, which technically means that when you log in once you do not need to log in again. You are automatically logged in to your Acubiz EMS solution when you enter your computer.

The only requirement for the company to implement SSO in connection to Acubiz EMS is access to the company's Active Directory Federation Services (ADFS) infrastructure. Using Acubiz Single Sign-On (SSO) means benefits to both employees and the company!
