acubiz

Acubiz Travel Management Service (TMS) is a simple solution for those who want to streamline the process of booking hotels. If you are not currently making use of a specific travel agency, you have the opportunity to book your hotel via Acubiz TMS.

Avoid the difficulties and the additional costs you experience when using different travel agencies. Acubiz TMS delivers a transparent overview of all your hotel expenses. In addition you will receive VAT compliant invoices which can be managed directly in your Acubiz solution.

Automatic foreign VAT refund

Supplementary to Acubiz TMS, you can acquire our

Acubiz VAT refund service, which together with Cash Back assists you to recover your foreign VAT on travel expenses. When you book your hotels via Acubiz TMS, and pay on location, you take a picture of your receipt as usual. The transaction will then be added to your invoice, and this invoice enables you to claim back your foreign VAT.

Acubiz TMS gives you access to an extensive data base, which provide you with the opportunity to obtain the most beneficial prices through Expedia.com and booking.com among others.
