

Acubiz Professional:

Expenses made simple. For everyone.

You have access to three features with Acubiz Professional:

Expenses

Register and keep track of your business-related expenses and digitize at the same time your receipts by taking a picture of them. Throw them out afterwards.

Mileage

The days with the classic driving book is over. Now you can register and track your business-related mileage. Either by entering addresses manually or through the automatic GPS tracker.

Reports

The reporting function provides posting ready reports with a complete overview of your expenses and mileage for the period you choose to report on. You can share the reports with your accountant, auditor or manager.

Acubiz Professional is an app-based solution for everyone who is looking for an easier way to handle their expenses and mileage tracking. Everybody can download the app and create an account.

Acubiz Professional is for all with a need for registering expenses and/or tracking mileage for whatever the reason, and is especially suited for people with driving- or expense activities. For example self-employed, craftsmen, consultants, sales people, freelancers, entrepreneurs and volunteers.

Acubiz Professional is free to use up to a total usage of 5 transactions/registrations (expenses/mileage) per month. For EUR 1,21 per month you get unlimited usage.

“ We open the basic functionality in Acubiz to everyone who wants to optimize the time they spend on expense management.

Get access to Acubiz Professional by downloading "Acubiz One" in App Store or Google Play.
